Secure Easy Futuristic

DIGITAL INSURANCE REVOLUTION

DEWDICE the overarching entity encompassing **REINZURE**, was founded with the specific objective of driving digitalisation within the financial sector, particularly in the insurance industry. Initially, our primary focus is on serving the B2B segment of the insurance market. However, our ultimate goal is to become the preferred digital network for the entire insurance industry, encompassing both the B2B and B2C sectors, as well as other functional sectors closely related to the insurance industry.

WORKFLOW SYSTEM

END TO END WORKFLOW SYSTEM

EASE OF DOING BUSINESS
BEYOND COMPARISON

CLOUD BASED

ASP.NET MVC CORE ON MICROSOFT AZURE

PERFORMANCE

With optimized data processing, load balancing, and CDN integration, the application delivers fast response times and a consistently high-quality user experience

SCALABILITY

The application leverages Azure's auto-scaling and multi-tenancy capabilities for efficient resource allocation, ensuring seamless growth and global expansion

FLEXIBILITY

ASP.NET MVC Core's modular architecture and cross-platform support, combined with Azure's wide range of services, enable easy customization and adaptation to evolving business needs

SECURITY

Adhering to industry-standard security frameworks, Azure's data encryption and continuous monitoring features protect sensitive information and maintain regulatory compliance

COST-EFFICIENCY

Azure's pay-as-you-go pricing and resource optimization minimize infrastructure costs, while seamless integration with other Azure services reduces operational expenses

RELIABILITY

High availability, robust backup and disaster recovery solutions, and regular updates ensure a stable and dependable application with minimal downtime
